Subject: RE: Responses to Comments - Data Evaluation Tech Memo

Good Afternoon Technical Tiger Team,

Attached are the updated response to comments on the Draft Radiological Data Evaluation Plan Tech Memo.

As we discussed at the last Technical Team Meeting, as the technical experts gain more familiarity with the data, they are finding necessary adjustments to the database and statistical methods in order to best meet the project objectives. The Data Evaluation Plan will be regularly revised based on lessons learned and input received during our bi-weekly tiger team meetings.

I encourage all future questions and comments on the data evaluation plan to be discussed during the bi-weekly Technical Team Meetings. We will consider all comments in developing the next version of the plan.

V/r,
Danielle Janda
